

МАТЕМАТИЧЕСКИЙ СБОРНИК
Том 130 (172) (1986), вв. 1-4
MATHEMATICS OF THE USSR—SBORNIK
Volume 58, Numbers 1-2, 1987

AUTHOR INDEX

Agrachev, A. A. and Sarychev, A. V. <i>On reduction of a smooth system linear in the control</i>	15
Bogomolov, F. A. <i>The stable rationality of quotient spaces for simply connected groups</i>	1
Bogomolov, R. A. <i>Two theorems on divisibility and torsion in Milnor's K-groups</i>	407
Bondal, A. I., Kostrikin, A. I. and Fam Khyu T'ep [Pham Huu Tiep] <i>Invariant lattices, the Leech lattice and its even unimodular analogues in the Lie algebras A_{p-1}</i>	435
Chueshov, I. D. <i>Equilibrium statistical solutions for dynamical systems with an infinite number of degrees of freedom</i>	397
Ėrikke [Jöricke], B. See Vol'berg, A. L.	
Fam Khyu T'ep [Pham Huu Tiep]. See Bondal, A. I.	
Firsova, N. E. <i>The direct and inverse scattering problems for the one-dimensional perturbed Hill operator</i>	351
Fragela, A. K. [Fraguela Collar, Andrés]. <i>On perturbation of a polyharmonic operator by delta-like potentials</i>	389
Ivanov, L. A. See Kipriyanov, I. A.	
Kashchenko, S. A. See Vasil'eva, A. B.	
Khaĭdarov, A. <i>Carleman estimates and inverse problems for second order hyperbolic equations</i>	267
Khukhro, E. I. <i>On locally nilpotent groups admitting a splitting automorphism of prime order</i>	119
Kipriyanov, I. A. and Ivanov, L. A. <i>Riesz potentials on Lorentz spaces</i>	467
Kolesov, Yu. S. See Vasil'eva, A. B.	
Kostrikin, A. I. See Bondal, A. I.	
Kruglikov, V. I. <i>Capacities of condensers and spatial mappings quasiconformal in the mean</i>	185
Krylov, N. V. <i>On estimates of the maximum of a solution of a parabolic equation and estimates of the distribution of a semimartingale</i>	207
Krylyuk, Ya. S. <i>The Zassenhaus variety of a classical semisimple Lie algebra in finite characteristic</i>	477
Kuksin, S. B. See Vishik, M. I.	
Millionshchikov, V. M. <i>Central exponents of linear systems of differential equations</i>	541

- Mushegyan, G. M. *On the recovery of the coefficients of a rearranged Haar series* 31
- Nessonov, N. I. *A complete classification of the representations of $GL(\infty)$ containing the identity representation of the unitary subgroup* 127
- Nguyen Tkhi Tkh'eu Khoa [Nguyen Thi Thieu Hoa]. *Best quadrature formulas and methods of reconstructing functions defined by variation diminishing kernels* 101
- Ovsyannikov, I. M. and Shil'nikov, L. P. *On systems with a saddle-focus homoclinic curve* 557
- Popov, V. L. *Contraction of the actions of reductive algebraic groups* 311
- Rakhmanov, E. A. *On asymptotic properties of polynomials orthogonal on the circle with weights not satisfying Szegő's condition* 149
- Rozov, N. Kh. See Vasil'eva, A. B.
- Sarychev, A. V. See Agrachev, A. A.
- Serëgin, G. A. *On differential properties of weak solutions of nonlinear elliptic systems arising in plasticity theory* 289
- Sharapudinov, I. I. *On the basis property of the Haar system in the space $L^{p(t)}([0, 1])$ and the principle of localization in the mean* 279
- Shil'nikov, L. P. See Ovsyannikov, I. M.
- Slyusarchuk, V. E. *Invertibility of nonautonomous functional-differential operators* 83
- Tareev, V. P. *A complex succession function in the problem of generation of complex limit cylinders and their relation with real limit cycles* 169
- Tarkhanov, N. N. *On Alexander duality for elliptic complexes* 59
- Vainberg, B. R. *Parametriz and asymptotics of the spectral function of differential operators in R^n* 245
- Vasil'eva, A. B., Kashchenko, S. A., Kolesov, Yu. S. and Rozov, N. Kh. *Bifurcation of self-oscillations of nonlinear parabolic equations with small diffusion* 491
- Vishik, M. I. and Kuksin, S. B. *Perturbations of quasilinear elliptic equations and Fredholm manifolds* 223
- Vladimirov, M. V. *Solvability of a mixed problem for the nonlinear Schrödinger equation* 525
- Vol'berg, A. L. and Ėrikke [Jörcke], B. *Summability of the logarithm of an almost analytic function and a generalization of the Levinson-Cartwright theorem* .. 337
- Yulmukhametov, R. S. *Quasianalytic classes of functions in convex domains* 505
- Zhuravlev, V. G. *Explicit duality formulas for symplectic and orthogonal Hecke operators on theta series of positive quadratic forms* 417
